## Professional Profile

Bringing a unique blend of technical expertise, creative problem-solving abilities, and strong management skills honed from years of fostering and cake decorating. Adept at developing innovative solutions, with a solid foundation in IT Administration and a passion for creating user-centered digital experiences.

## Professional Skills

- Outstanding customer service orientation.
- Proficiency in conveying technical concepts to non-technical stakeholders.
- Demonstrated ability to work autonomously or within a team setting.
- Proficient in web services, C#, JavaScript, HTML, and CSS.

## Education

### Enterprise Web Development Diploma, triOS, Remote, ON | 2023—2025

- Key Courses: SQL (Database Management & Design), Java, C#, C++, JavaScript, HTML, CSS, Python.

### IT Administration Diploma, Windows Server, triOS, Hamilton, ON | 2017—2018

- Coursework: A+, Network+, Security+, CCNA Routing and Switching, PowerShell for System Administration, Microsoft Exchange Server.
- Highly organized with the capability to manage multiple projects concurrently and prioritize effectively.

## Experience

### Web and Mobile Developer (Student) | Remote

- Proficient in **Swift**, **SwiftUI**, **Android Studio**, **Firebase**, **SQL**, **MongoDB**, and **React Native**.
- Developed and managed projects using **WordPress**, **Bootstrap**, and various web technologies including **React**, **Node.js**, and **Next.js** for server-rendered applications.
- Expert in integrating functionality with design, leveraging a range of tools to create responsive layouts and robust backend systems that deliver immersive digital experiences across multiple platforms.
- Skilled in **C# MVC**, **ASP.NET**, and a wide array of other languages and frameworks, adept at overcoming complex coding challenges to craft sleek, dynamic user interfaces.

### Intern, Simplified Telephony Solutions (Remote) | Newmarket, ON | 2018

- Acquired experience in deploying **Kubernetes clusters** on **Google Cloud Platform** using **Terraform**.
- Utilized **Docker for Windows** and worked within **Ubuntu** and **Visual Studio Code** environments.
- Gained valuable remote work experience and developed a solid foundation in infrastructure as code concepts.

### Foster Parent (Kinship), Hamilton Children's Aid Society | 2014—Present

- Primary caregivers for our non-verbal autistic nephew and facilitated supervised visits for our nieces.
- Provided temporary fostering for newborn niece until family readiness.
- This has helped me improve **communication**, **creative problem solving** and **management skills**.
